SITUATION SUMMARY

CDPH Ebola Situational Update, August 15, 2014

At present, the weekly situational assessment for the risk of Ebola infection in California is VERY LOW.

- As of August 13, the U.S. Centers for Disease Control and Prevention has reported a cumulative total of 1975 suspect and confirmed cases and 1069 deaths.
- CDC has advised travelers to avoid all non-essential travel to Guinea, Sierra Leone, and Liberia, and has issued a lower level alert for Nigeria.
- Both CDC and the California Department of Public Health (CDPH) have begun efforts to prepare for the unlikely event that a returning traveler from these countries is infected with Ebola virus.
- CDPH has created an internal workgroup to address all public health aspects of the Ebola response.
- CDPH continues to work with the health care community and local health jurisdictions to identify potential suspect cases and avoid the spread of the disease.
- On August 12, CDPH conducted two statewide calls with local jurisdictions and local public health laboratories to review the current EVD situation and CDC guidance for identifying and managing cases with suspect Ebola virus infection that may arrive in California.
- To date neither CDPH nor any local health jurisdictions have received reports of any suspect cases of Ebola in California.

Boil Water Order , Escondido, San Diego County

- The Cal OES Southern Duty Officer advised of a Boil Water Notice has been ordered for the City and Unincorporated areas of Escondido, San Diego County due to the appearance of a buildup of coliform bacteria. Rincon del Diablo Water District is advising residents in District ID 1, Pressure Zone 3 to use boiled tap water or bottled water for drinking or cooking purposes as a safety precaution.
- Rincon del Diablo Water District has reported that over 40 samples have been taken and is currently looking to what caused the coliform bacteria. This is a standalone Water Quality issue and is not related to the Drought in California. This incident has attracted local media attention.
- State Waterboards Drinking Water Program (DWP) Duty Officer advised through his Regional contact that these types of notices are routine work for a district office and can be lifted by Sunday evening at the earliest. Cal OES Southern Region continues to stay in contact with San Diego County.
- There are no requests for assistance or unmet Access and Functional Needs issues.
- Please [click here](#) to view the Boil Water Notice.

SITUATION SUMMARY

City of Needles Severe Weather Incident, San Bernardino County (Update)

Initial Damage Information has been received for the City of Needles. Crews are still out and the damage information may change. Current Public Assistance damage is just over \$2.3 million including personnel overtime costs and estimated costs of Debris Removal (Category A), Road and Bridge Systems (Category C) and Public Utilities (Category F). Individual Assistance damage includes 15 homes and one business destroyed, and 250 homes affected.

Situation

On Tuesday, August 12, 2014 at approximately 1630 hours a severe thunderstorm settled over the City of Needles causing flooding and wind damage. The City of Needles reported a minimum of 50 downed power lines, damage to roofs, and multiple downed trees. A determination has yet to be made if this incident may be linked to the August Severe Weather Incident.

- A local proclamation was received August 14, 2014 from the City of Needles for heavy rain, flooding and adverse weather conditions. The Proclamation is requesting a Governor's Proclamation including CDAA, a Small Business Administration declaration and any State or Federal funding. Initial damage estimates continue.

Road Closures

- Pahaska Trail from Rio Vista Drive to North to Lakota Court in the area of Big River, no anticipated time for reopening.
- Five Mile Station Road from I-40 west to Highway 95 in the area of Needles, no anticipated time for reopening.

Potential Japanese Tsunami Marine Debris (JTMD), Daly City, San Mateo County (No change)

A potential Japanese Tsunami Marine Debris (JTMD) was discovered on Mussel Rock Beach, in Daily City, San Mateo County. The boat is on Federal Land in a National Recreation Area. Boat is still on the beach. At high tide, the water will reach the boat. Boat is secured. **Salvage Strategy**

Access: San Mateo County worked with Daly City Police and Fire departments to obtain access for appropriate parties to do the salvaging operation which is lead by GGNRA.

Next steps: Estimates obtained from contractors and salvage operations will begin today and through the weekend if necessary. Coastal Region will continue to monitor the situation.

SITUATION SUMMARY

Port of Oakland Protest (Update)

Oakland PD's estimate of 1,000 protestors did not materialize. 08/16/14 at 0500 hours, there were about 50 protestors at the BART station, mostly pro Palestine. By about 0545 hours the group decided not to march but said they would return at 1500 hours today. At 0630 there were no protestors remaining at the BART station. Oakland PD has opened their DOC and have staffed up for the event. No issues at this time.

Oakland Police Department (OPD) is expecting 500-1000 demonstrators on Saturday, August 16, 2014 to protest the ships partly owned by the government of Israel. Although no law mutual aid has been requested, the Port has reached out to Alameda County Sheriffs Office (ACSO) for Law Enforcement support. The distinction is that this is a planned event and therefore not technically mutual aid. OPD is planning on having their Department Operations Center (DOC) open on Saturday. The protest is planned to occur, even if the ships cancel their arrival to the Port. Cal OES Law Enforcement Branch and the Cal OES Ports and Harbors representative continue to monitor the situation and coordinate information.

Hurricane-Tropical Storm, Hawaii, Pacific Ocean (No change)

Current Situation:

Tropical Cyclones Iselle and Julio have dissipated; however, there are two new storms heading towards Hawaii. EMAC Team members are currently conducting advanced planning and working to procure tarps from FEMA (there are 1,000+ on the island). The EMAC Team is reaching out to EMAC partners; there is a possibility that an IMT Team will be brought in to assist with staffing in the EOC. Nothing has been requested at this time.

Activations:

Hawaii County: EOC activated; 1 shelter open

State: State EOC is Partially Activated

EMAC Deployment

2014-SOC-4699 Deployment of A Team Type I Staff

- (2) OES staff and (1) CNG departed California 8/8/2014, expected to return, 08/22/14.

Significant Weather

Nothing significant to report.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Weak high pressure over the North Coast will bring seasonal temperatures and dry conditions through the weekend. Coastal locations can expect low clouds each night and morning. Broad troughing will develop over the West Coast early next week bringing slightly cooler temperatures.

San Francisco Weather:

A quiet weather pattern will continue through the weekend and into the middle of next week. Dry conditions will persist with areas of night and morning low clouds followed by sunny afternoons. Temperatures will be near normal with no unseasonably hot weather forecast. However, there is the possibility of showers indicated by the end of next week as tropical moisture spreads northward into the state.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Dry and mild weather expected into next week with temperatures near to slightly below normal. A low off the coast Sunday into early next week may bring some isolated showers and thunderstorms Monday afternoon.

Hanford Weather:

A ridge of high pressure will build westward from the four corners region and bring dry weather and slightly above normal temperatures to the Central California interior this weekend. An upper level trough of low pressure will settle southward along the California coast early next week and produce an onshore flow with a cooling trend Monday through Tuesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A warming trend will continue into today as high pressure aloft builds westward. An approaching trough of low pressure will bring a cooling trend for much of next week. Overnight low clouds and fog will remain confined to coastal areas through Sunday, but will likely expand throughout next week.

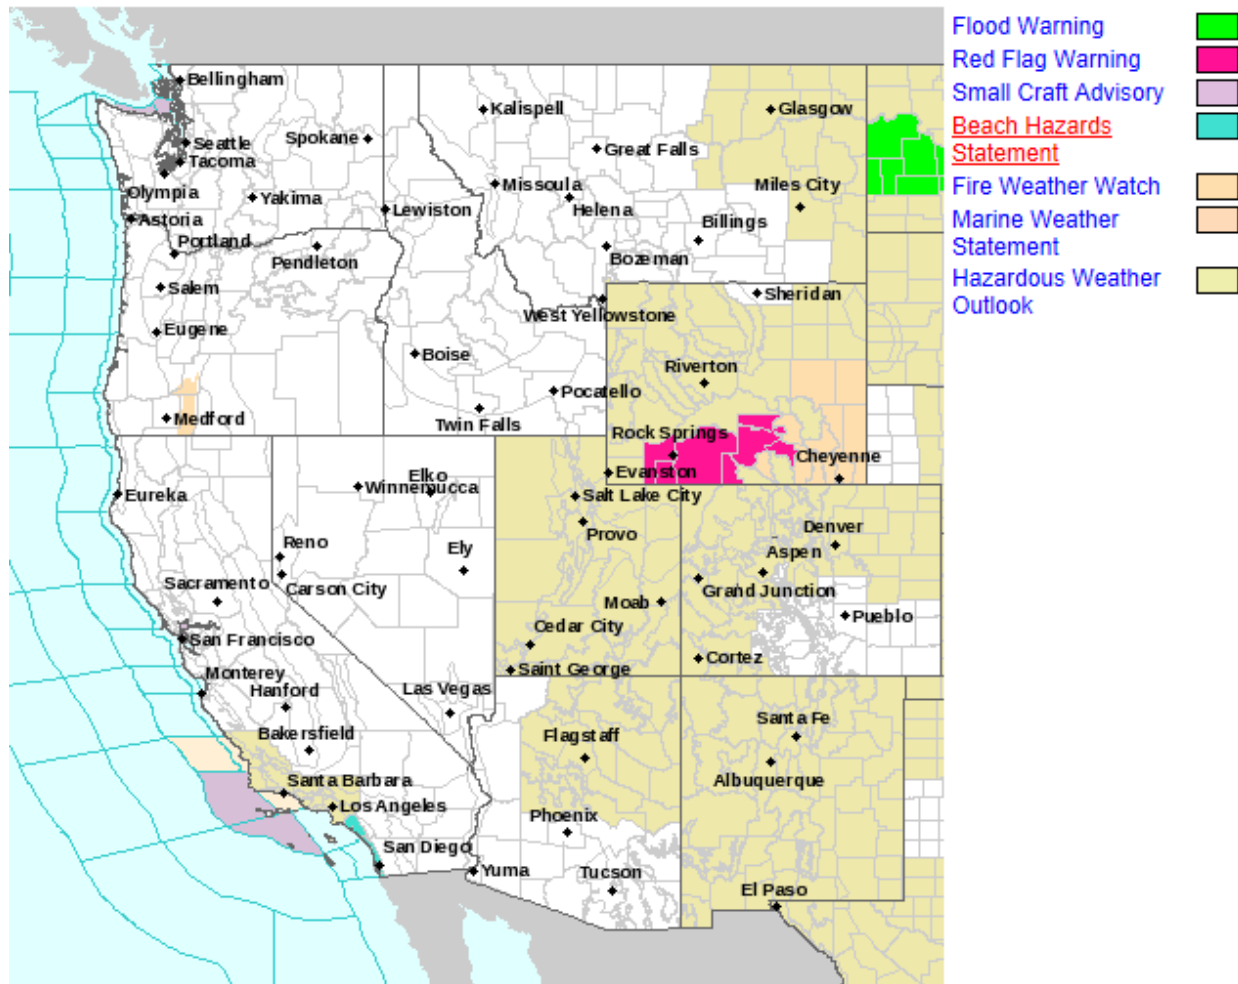

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A low pressure system will develop off the Northern California coast then move slowly southward along the California coast through mid-week. This will bring slow deepening of the marine layer with more night and morning coastal low clouds and patchy fog and slight cooling west of the mountains. In the latter half of the week, the low pressure system could bring some mid-level moisture and clouds northward.

Southeast California Weather:

Low pressure off the California coast will draw significant amounts of monsoon moisture into Southeast California next week allowing for a better chance of widespread showers and thunderstorms by the middle of next week.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of [August 14th](#): Don Pedro 42%; Exchequer 18%; Folsom Lake 40%; Lake Oroville 33%; Millerton Lake 48%; New Melones 25%; Pine Flat 12%; San Luis 20%; Lake Shasta 32%; Trinity Lake 32%; Pyramid Lake 94%; and Castaic Lake 45%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water¹ to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

- Cal OES continues to gather drought-related costs from state agencies and local governments.
